Did you watch Avatar? Did you see it in 3D? There are more and more 3D movies all over the world. When you see a 3D movie, you have to wear a pair of special glasses. They will make the characters in the movie look real. Moreover you feel like you can almost touch them. That's why they attract people, who pay much more money to go and watch these movies.

Actually the 3D movies started in the 19th century. At that time, the film projectors were put side by side and the audience saw the pictures through special green and red lenses. 30 years later, "The Power of Love," the official 3D movie, was shown in the theater. And from 1952 to 1995, 3D movies became big hits. People called it as the "golden era" of 3D movies.

Because Avatar became widely popular, you will have more chances to watch 3D movies in the future. The new Shrek and Toy Story are coming in May and June. You can enjoy them soon.

Last weekend our PE teacher, Mr. Red, took us to Green town on a school trip. He sent e-mails to several hotels there. In the end, he decided to stay at the Apple Hotel. At first, we thought we'd have a wonderful trip and felt so excited.

We left home at 7 a.m. on Saturday. Mr. Red drove the school bus. Some of us slept all the way because we got up very early in the morning. We finally arrived in Green town at about 10:50 a.m. At that time, it started to rain heavily.

We woke up early on Sunday morning and could not go anywhere. We could only look outside and found that the river water flowed everywhere. We decided to go down for breakfast. But the kitchen was full of water.

Then at lunch time, one of the boys fell into the river. Luckily Mr. Red was a good swimmer. He heard the boy's cry for help and jumped into the river and saved him.

Sunday afternoon was even worse. Two girls went to the center of the town without telling Mr. Red. They got lost there! A policeman brought them back to our hotel! Mr. Red was very angry.

We came back to our city on Sunday evening. We didn't do anything fun. It was a terrible trip.
